Our Beehive Series has been popular among landscape architects and designers for years due to its unique appearance and distinctive colors that only The Belden Brick Company can achieve in our beehive kilns. Designed to minimize maintenance and maximize complements, these Belden Clay Pavers are famous for banding, borders, and inlay accents in paver designs.

Rectangles aren't the only shapes available in our Belden Clay Pavers. For Beehive Series Pavers that are available in standard, standard 8 x 8, and standard plank paver sizes, create random pattern possibilities that further add to your look and design customization.
