Mosaic Guide

You're not looking
to blend in, but rather
stand out from the crowd.
We take that philosophy
and make it possible
in the outdoors,
reshaping the idea
of what landscapes
can look like.

We live to create.

Color

More than just shades of grey

Show your true colors. Take cues from your home's exterior to create mixed, matched, or contrasting color statements at ground level.

From grey patio pavers and modern black slabs to pavers inspired by traditional red brick, we have a hue to match your mood.

Fade to Fabulous

Graduating shades of the same hue make for an elegant yet subtle design. Whether you opt for cooler tones of grey or warmer browns and reds, laying stones in a dreamy gradient will always make for a showstopping design.
